

Akbar Nemati Home Page

Contributed by Akbar Nemati

Dusharm is an antique Persian term which means "LOVE".

I'm Akbar Nemati. I established this website, titled "Dusharm", on the basis of my goals; I want to represent true vision and insight of Persia in my website.

I try to follow the way of our Great King of ancient time (580-529 BC), Cyrus, which is ,even now, the best one in all over the world.

For 4 years, I was an editor of a magazine, Nojum, that published articles about astronomy. Hereby, I present my web site "www.persianstar.com" which is about Astronomy. I am experienced in web-designing and it is really a cool job !

I'm an amatuer astronomer too. I'm proud of constructing an observatory in Hamadan, Alisadr Cave, in 2003.

I like painting and observing stars during when I'm free.

If anyone helps me in acheiving my goals I would appreciate it. Please contact me.
